

# Lesotho - Urban & Peri-Urban Water

Report generated on: August 23, 2018

Visit our data catalog at: <https://data.mcc.gov/evaluations/index.php>

## Overview

### Identification

---

**COUNTRY**

Lesotho

**EVALUATION TITLE**

Urban & Peri-Urban Water

**EVALUATION TYPE**

Independent Impact Evaluation

**ID NUMBER**

DDI-MCC-LSO-URBANWATER-NORC-2012

### Version

---

**VERSION DESCRIPTION**

Not applicable to this evaluation; no quantitative data to be shared

### Overview

---

**ABSTRACT**

Early on, MCC and the evaluator decided to focus the Urban and Peri-Urban Water evaluation on Package 1 infrastructure, which benefited Maseru and Mazenod. MCC later decided to expand the scope of this evaluation for two reasons. First, four additional packages of infrastructure were provided throughout Lesotho, and that work needed to be assessed. Second, Package 1 infrastructure is actually connected to the Metolong Dam activity, which will significantly increase the volume of water entering the Urban and Peri-Urban Water network. Rather than contract for separate evaluations of these related investments, MCC decided to cancel the existing evaluation and pursue one comprehensive evaluation of the Metolong Dam and Urban and Peri-Urban Water activities.

**EVALUATION METHODOLOGY**

Continuous Treatment

**UNITS OF ANALYSIS**

Households

**KIND OF DATA**

Sample survey data [ssd]

**TOPICS**

Topic	Vocabulary	URI
Water, Sanitation and Hygiene	MCC Sector	
Gender	MCC Sector	

**KEYWORDS**

water infrastructure, sewage, water supply

### Coverage

---

**GEOGRAPHIC COVERAGE**

The towns of Maseru and Mazenod

### DDI DOCUMENT VERSION

Version 1.0 (August 2015)

### DDI DOCUMENT ID

DDI-MCC-LSO-URBANWATER-NORC-2012

## MCC Compact and Program

---

### COMPACT OR THRESHOLD

Lesotho

### PROGRAM

The Urban and Peri-Urban Water activity involves reticulation extensions and infrastructure rehabilitation of the urban and peri-urban water network, including reticulation extension to the towns of Semonkong and augmented supply to the town of Mazenod.

### MCC SECTOR

Water, Sanitation and Hygiene (WASH)

### PROGRAM LOGIC

The Urban and Peri-Urban Water activity was expected to provide time-savings to households, reduce water-related health problems, and increase the productivity and incomes of benefiting households.

### PROGRAM PARTICIPANTS

Households in areas receiving infrastructure rehabilitation

## Sampling
